DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: on Page 1, line 8, insert ---10/754,905--- after Serial No., delete "not yet assigned" and remove all the text from "under Attorney" to line 11 text "now pending."

Appropriate correction is required.

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are not precise and do not have well defined lines nor numerals. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1-11 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Art Unit: 3726

A typical method for coupling a pumping cartridge to a reusable pump drive comprises providing a pump drive system of a piston and cylinder type, attaching a piston to a motor through a driveshaft, and attaching a check valve to a piston for inhibiting reverse flow.

The claimed subject matter is allowed because the prior art fails to teach a method for reversibly coupling a pumping cartridge to a reusable pump drive system, comprising first and second pumping cartridge retaining components configured and positioned to engage to a first portion and second portion respectively of the cartridge.

The two cartridge retaining components allow the cartridge to be locked into two different positions, which will prevent or reduce irreversible deformation of the piston member during storage, and provide an easy method for positioning the piston.

Conclusion

This application is in condition for allowance except for the following formal matters:

See above paragraphs for objections to the specification and the drawings.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
